d'ITALIA**

GENERAL OBJECTIVES

The significance of safe food production and consumption has been widely recognized, as the risks of food nutritive value reduction increase due to its industrial production. Even in developed countries industrial food production brings about new threats to human health.

Various issues concerning safe food are being increasingly addressed both in professional and general publics of the developed countries, while the post-socialist ones are rather lagging behind them.

With the general aim to contribute to communicating valid knowledge and supporting exchange of opinions and experiences as well as making the knowledge actionable, the Ecological Conference[®] on Safe Food has been held in even years since the year 2000. The conference aims to:

- address, at a scientific-expert level, a wide range of key issues concerning safe food production and environmental consciousness;
- discuss and assess the causes of environmental imbalance in conventional agricultural production and the impact of various pollution sources on agricultural production at present;
- offer practical solutions, based on scientific indicators and expert opinions, to help meet present challenges and those that lie ahead;
- present relevant proposals and suggestions for the long-term strategic programs in food production (in the industrialized, controlled, integral, alternative and sustainable agriculture) without negative effects on human health and the environment.

SUBJECT AREAS

The Eco-Conference[®] is open to all the issues concerning safe food, from the point of its production, to the point of consumption.

Contributions that are most welcome are those that point out good or bad practices, while validating factors affecting food safety and quality in the following subject areas:

- Environmental factors and food production
- Correct choice of seed (genetic) material
- Status and preparation of soil as the basic substrate for the production of food and feed
- Use of fertilizers and pesticides in integrated plant protection
- Food processing technology
- Economic aspects, marketing and packaging of safe food

SESSION TOPICS

The Conference will work in sessions. The final list of sessions – timing of the Conference will depend on the number of papers submitted.

The following session topics have been proposed by the Scientific Committee:

1. Climate and production of safe food.
2. Soil and water as the basis of agricultural production.
3. Genetics, genetic resources, breeding and genetic engineering in the safe food production.
4. Fertilizers and fertilization practice in the production of safe food.
5. Integrated protection of plants, the use of pesticides and the effects of residues.
6. Agricultural production in view of sustainable development
7. Production of field and vegetable crops.
8. Production of fruits and grapes.
9. Livestock husbandry from the aspect of safe food production.
10. Processing of agricultural products in the framework of safe food production.
11. Economic aspects and marketing as segments of the production of safe food.
12. Food storage, transportation and packaging.
13. Nutritional food value and quality nutrition.
14. Legal aspects of protecting brand names of safe food.
15. Environmental models and software in production of safe food.

NOTE:

Topics listed above should be regarded as the subject framework. Participants are kindly requested to submit only original scientific or technical papers **that have not been published before** and in which the practical possibilities are stressed for application of certain solutions in production of safe food.

All papers will be reviewed. Papers accepted by the Scientific Committee will be published in the Conference proceedings. Each participant may be the principal author of one paper alone.

OFFICIAL LANGUAGES OF THE 2018 ECO-CONFERENCE®

The Eco-Conference® official languages are Serbian and English.
Thematic collection of papers will be published in English.

PARTICIPATION FEE

Participation fee **per paper** is 100 €. Payable by the first author.

Participation fee after June 1st **per paper** is 200 €.

Participants (attendants) pay the participation fee in the same amount.

The participation fee implies that the following is provided for the authors of papers and participants (attendants):

- Eco-Conference® 2018 proceedings with papers printed in whole, in English
- daily meals (lunches) in an exclusive restaurant,
- refreshments during the working part of the Eco-Conference® 2018 and

Participation in a variety of accompanying cultural events:

- Nature preservation exhibition

- Concert
- Official banquet
- Field excursion (lunch included)

Participation fee is to be paid to the foreign currency account of the Ecological movement of Novi Sad:

Please find listed below the instructions for your incoming EUR payments, as follows:

MONEY TRANSFER PAYMENT INSTRUCTIONS IN EUR

In order to remit EUR amounts to your account with VOJVODANSKA BANKA AD please proceed according to following payment instructions:

DEADLINES

Please send us your application form as soon as possible.

June 1st 2018 - deadline for submission of papers

August 31st, 2018 - deadline for payment of participation fee

Papers for which the participation fee is not paid within the above-mentioned deadline shall not be published in the Proceedings of the Eco-Conference® 2018.

VENUE OF THE OFFICIAL OPENING OF THE ECO-CONFERENCE®

Public Company Sports and Business Center "Vojvodina", Sutjeska Street no. 2, Novi Sad

VENUE OF THE WORKING PART OF THE ECO-CONFERENCE®

Institute for Nature Protection of Vojvodina region, Radnicka Street 20A, Novi Sad,

EDITORIAL GUIDELINES

Papers should be submitted in correct **English** (whole), with the **maximum 8 pages** in A-4 with margins set to TOP: 62 mm; BOTTOM: 50 mm; LEFT: 45 mm; RIGHT: 40 mm, together with abstract and key words.

Papers written in poor English shall not be taken into consideration.

All papers are subject to reviews.

IMPORTANT NOTES:

Papers should be sent to the organiser's E-mail address, with confirmed receipt.

Use **Microsoft Word for Windows** to edit your papers

Use **Times New Roman** font, **Single** space and do not use **Footnotes**.

It is necessary to unify all headlines, quotation marks, dashes, listing marks etc.

Space for official use (only on first page)
